

CYBERSECURITY WORKSHOP

Protecting the Continuity of Care in an Evolving Threat Landscape

DATE: May 5th

TIME: 9:00 AM – 3:00 PM (Lunch Included)

LOCATION: Shoreview Community Center, Shoreview, MN

AUDIENCE: Healthcare Administrators, IT Professionals, Clinical Leads, and Emergency Managers

COST: Paid for by Healthcare Preparedness Program (HPP) Grant funds

The Current Cyber Threat Landscape

Provide participants with a clear, accessible overview of today's cyber threats, tactics, and trends, with a particular focus on those targeting healthcare organizations.

Cyber Hygiene and Risk Awareness

Emphasize foundational cyber hygiene practices and how individual behaviors—both at work and in personal life—can reduce organizational risk. Understand your role in risk prevention.

Real-World Healthcare Case Studies

Leverage local and regional speakers to share candid lessons learned from real incidents. We will discuss direct attacks on healthcare organizations and the downstream impacts of vendor-related cyber events.

Operational Impact and Downtime Preparedness

Explore the operational realities of cybersecurity incidents beyond the technical response, with a strong focus on extended downtime events, continuity of care, and practical readiness strategies.
